*Academic Director*

---

For many years, the Sharing Talent Day has been a great opportunity for NEOMA Alumni and professors to meet.

Today, it will be our pleasure to exchange about the latest pedagogical development at NEOMA and about our needs for training students for the future of work. The Alumni, from the heights of the expertise they have developed and the understanding of the work environment they have matured, are a very important partner in our attempt to deliver education both for jobs that have radically changed and for jobs that do not yet exist. This puts the Alumni in a unique position to deliver a variety of courses, in different formats, that will allow our students to learn and grow.

We look forward to strengthening this relationship, and to a renewed collaboration between Alumni and faculty at NEOMA!

**Fabio FONTI, Associate Dean for Faculty and Research**  
**Nathalie SUBTIL, Academic Director**

## **Agnès FLOUQUET-VILBOUX**

*Directeur général de NEOMA  
Alumni*

*The beginning of the year is off to a flying start for NEOMA Alumni with the comeback for the 6th edition of our Sharing Talent Day, a recruitment forum for temporary professors among the members of the NEOMA Alumni community.*

*Our vast network now counts nearly 72,000 members. This is a wealth of professional experience, diverse backgrounds, multiple talents and expertise that can enrich the training of future generations of NEOMA Business School graduates still on the school benches!*

*By being here this evening, you are actively participating, alongside the professors of NEOMA Business School, in the construction of these relevant and fulfilling learning paths and, beyond that, in the future careers of the School's students.*

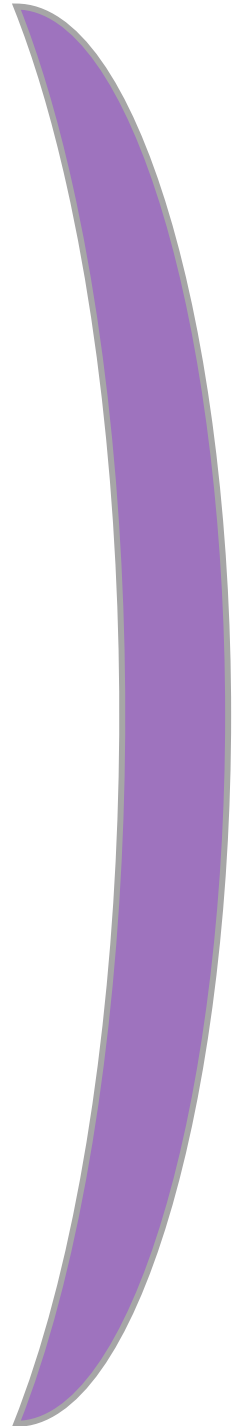

*Ilan Benhaim, President of NEOMA Alumni, joins me and the entire board in warmly thanking you for playing this role of passing on the baton to the future decision makers and managers of tomorrow.*

## Bon à savoir !

- En tant que guest speaker. C'est un témoignage d'expert d'une durée maximale de 3h dans un cours de 30h. Ce témoignage n'est pas à être technique, mais relie, plutôt, une thématique étudiée dans le cours à un parcours et pratique professionnel ;
- En tant qu'Expert. Cette intervention d'une durée de 6h, voire 9h, aborde techniquement une partie dédiée du cours ;
- En tant que chargé de cours. C'est un mode d'intervention classique dans lequel l'intervenant se charge de la moitié ou de la totalité du cours, ce qui implique une préparation d'examen(s) et la correction de copies.
